

### CERTIFICATE OF ANALYSIS

Client: ABC	Work Order: 16HOM123
	Date Received: February 3, 2016
	Date Analyzed: February 8, 2016
	Date Reported: February 8, 2016
	Analysis: Fibre Count
Client's reference: 123	Reference Procedure: Phase Contrast Microscopy NIOSH 7400

#### Results:

Client's Sample ID	Lab. Sample ID	Air Volume L	Fibres fibres/filter	Fibres ff/cc
CR549925 Bedroom	16HOM123-01	2392	9000	0.004
CR549309 Living Room	16HOM123-02	2500	9200	0.004
CR549797 Basement	16HOM123-03	2299	7300	0.003
<b>Reporting Limit (RL)</b>	-	-	<b>RL=3000</b>	-

#### Comments:

- Results for airborne concentrations are calculated based on air volume provided by client

#### Notes:

- Sample(s) was (were) packed according to the standard method recommendations and accepted for analysis
- RL- Reporting Limit is the lowest concentration reported by laboratory
- Test results pertain only to analysis of samples herein reported
- Results are blank corrected if such is provided. Blank sample is reported without correction
